

# Commercial Activities UPDATE #3

---

10-29-02

## **New News**

A draft Work Breakdown Structure (WBS) continues to be refined by site representatives and employee workload count data is being gathered and consolidated into a database. Information will assist in the development of the Performance Work Statement (PWS).

The Captain's Call with Captain Eichert, CNRMA Chief of Staff, and NAVSTA Norfolk employees affected by the Study, originally scheduled but subsequently cancelled in October, has been re-scheduled for 14 November, 1300-1400, Building N-26, 2<sup>nd</sup> floor Conference Room. A plan for meeting with the employees at Mechanicsburg/Philadelphia is still in process. The purpose of these meetings is to give employees an update on the status of the Study and to answer any questions/concerns expressed by the employees.

Many thanks to all of you for your continued support and assistance. We will continue to post monthly updates to keep you informed as the Study progresses.

If you have any questions, recommendations or ideas pertaining to the A-76 study, please contact your site representative or the Team leader.
